About the coronavirus vaccine

The coronavirus vaccine is free of charge to you. We will never ask anyone to make a payment to receive your vaccination.

You need two doses of the vaccine to get the best protection from the virus. When you book your first appointment, you will be given an appointment for your second dose.

Some people may not be able to get this vaccine at the moment. If you have had bad allergic reactions in the past, it is important that you read all the guidance. For further information please visit:

www.nhs.uk/covid-vaccination.

Attending your booked appointment

If you do not have a way of getting to a vaccination site, please call us on 0115 883 4640 and we can arrange this for you.

Once you have booked your appointment you must **attend no more than 10 minutes before** as there is limited indoor waiting space.

If you need to bring someone to support you at your vaccination appointment, please only bring one person. Avoid bringing large bags or personal items.

You may also receive an invitation to book by the National Booking Service. If you have booked your appointment through the link or number above, you don't need to book again.
